

Decorative Landscape Curbing

Why install Concrete Curbing on your Home?

Landscape curbing is an innovative way of making your landscape beds and walkway stand out amongst your neighbors. Curbing is one continuous piece of concrete that is mixed and extruded specifically for each job. It comes in a variety of colors and patterns which makes each job custom and unique. Not only does it look great but also functions as a cost effective and stylish landscape border for your home or business.

Benefits of Continuous Concrete Curbing:

- Concrete landscape borders do not discolor, rust or rot like metal, plastic or wooden garden edging.
- Weed and Erosion Control- Curbing provides an effective barrier that eliminates hours of weeding and edging.
- Concrete edging yields a professionally designed appearance that is permanent.
- Curbing can be installed without disturbing existing landscaping.
- Customizable to match anything -from your brick, stone, or a specific landscape color that you may have in your garden.
- Concrete borders look and feel like genuine brick and stone.
- More economical and durable than traditional lawn edging.
- Professional appearance adds value to your property
